

Ceiling Speaker

CS-620FH/630FH/680FH

(Previous models : CS-20/30/80)

CS-620FH/630FH/680FH series speaker is the speaker for playing music using coaxial 2 way unit

It is the finest solution for the space such as class room, meeting room which needs high quality sound and high intelligibility

FEATURES

- **6.5 inch coaxial 2way speaker**
 - CS-620FH : 20 W · CS-630FH : 30 W
 - CS-680FH : 80 W
- **Using high quality matching transformer (100V)**

Model	Impedance			
CS-620FH	8Ω(20W)	500Ω(20W)	1kΩ(10W)	2kΩ(5W)
CS-630FH	8Ω(30W)	330Ω(30W)	500Ω(20W)	1kΩ(10W)
CS-680FH	8Ω(80W)	125Ω(80W)	250Ω(40W)	500Ω(20W)

- **Power selection**
Tap switch
- **Low impedance input terminal**
It provide an connection terminal of low impedance(8Ω) for playing high quality music.
- **high input power and wide frequency response**
It is possible to play the wide frequency up to 200Hz~20kHz and high sound pressure music by accepting an output of high rated input and frequency characteristic up to over 40 W(PGM).
- **Wether Resistant**
IP 34

- **Rust proofing**
Coating and plating for the rust proofing in order to install and operate the high humidity environment.
- **Offering an installation bracket**
It ensures an safe installation of speaker by providing high quality speaker installation tools made up with bracket- ring and bracket-rail.
- **Tap switch**

- **Connecting the each output cable of speaker**
